

# Index to "The Library Scene" Volume 8, 1979

Compiled by K. Subramanyam

Associate Professor, School of Library and Information Science, Drexel University

Beginning in 1981, the previous year's volume of *The Library Scene* will be indexed in issue number 1 (March). The index below, for Volume 8, 1979, is the first index published for *The Library Scene*. These indexes will be useful tools for all library personnel.

The subject index covers all articles and editorials, but excludes news items, announcements and advertisements.

The author index includes authors of articles, editorials, book reviews and letters to the editor. The location mark in each entry consists of the issue number followed by the beginning page number. Thus the entry "Edition binding .....4-26" means that information on edition binding can be found in an article beginning on page 26 of issue number 4 (December, 1979).

## Subject Index

Acidity ..... 1-27, 2-4, 2-5, 3-4, 3-5, 4-11  
 Alternatives to binding ..... 3-12  
 American Library Association  
   Annual Conference ..... 3-22  
 American Library Association  
   Midwinter Meeting ..... 1-8  
 American Museum of Natural  
   History Library ..... 1-2  
 Archives in business firms ..... 1-29  
 Baker County Public Library ..... 2-30  
 Binderies ..... 3-30  
 Bindery equipment ..... 2-15  
 Binding, definitions ..... 2-10, 4-26  
 Binding, history ..... 4-21, 4-28  
 Binding manual ..... 1-14  
 Binding methods ..... 2-12, 3-24, 4-20  
 Bookbinders ..... 2-20  
 Bookbinding badge ..... 2-20  
 Book boxes ..... 1-5  
 Budgets for binding ..... 1-7  
*Catalogue of Nineteenth Century  
   Bindery Equipment* (review) ..... 2-15  
 Certified Library Binders ..... 1-24, 2-2, 2-8  
   2-10, 2-16, 3-20, 4-8, 4-18  
 Chappaqua Public Library ..... 1-20  
 Class "A" binding ..... 1-19, 1-25, 2-8, 2-10  
 Cleat lacing ..... 4-21  
 Collation ..... 2-9  
 Colorado State University,  
   Department of Textiles  
   and Clothing ..... 3-18  
 Deacidification ..... 1-27, 3-4, 3-5  
 Deterioration ..... 1-27, 2-4, 3-4  
   3-5, 3-12, 4-10  
 Discarding of books ..... 3-13  
 Dobbs Brothers Library  
   Binding Co. .... 4-18  
 Drying ..... 3-6, 4-14  
 Dunn & Wilson Group ..... 4-28  
 Dust ..... 2-5  
 Edition binding ..... 4-26  
 Encapsulation, polyester ..... 1-5  
 Endpapers ..... 1-18  
 Freeze-drying ..... 3-6, 4-14  
 Freezing ..... 3-6

Freitag, Doris. Harvard  
   University Libraries ..... 4-2  
 French sewing ..... 3-26  
 Handbinding ..... 1-12, 3-10  
 Handsewing ..... 2-14, 3-25, 3-26, 4-20  
 Harvard University Libraries,  
   book conservation ..... 4-2  
 Humidity ..... 2-4, 3-6, 3-13, 4-10  
 In-house rebinding ..... 3-13  
 Insect infestation ..... 3-7  
 Intersewn binding ..... 3-25  
 Library binding, definition ..... 4-26  
 Library Binding Institute ..... 4-8, 4-20  
   Standards ..... 1-24, 1-26, 2-8  
*Library Binding Manual* (review) ..... 1-14  
*Library Conservation: Preservation  
   in Perspective* (review) ..... 4-19  
*Library Journal* Preservation Series  
   (review) ..... 3-15  
 Light ..... 2-5

Wick, Kathleen, bookbinder .....	1-12
Wire stitching .....	2-13
Wood pulp .....	4-10
Wrapper .....	1-5
Young bookbinders .....	2-20

## Advertising Policy for "The Library Scene"

The Library Binding Institute endorses no machinery or equipment used in library binding. It does endorse specific methods of binding for library use and these are set forth in the L.B.I. Standard for Library Binding (usually called Class "A"). These methods have become the standard throughout the North American continent and in many foreign countries.

By the same token, L.B.I. endorses the principle that every supplier of equipment is entitled to present his wares to the market. For this reason, we open our pages to advertisements of

equipment used in binding, without thereby endorsing either the binding produced by the equipment or the method itself. Even though we may question the accuracy of representations made by the seller, we believe librarians are entitled to know of all methods and to judge for themselves which suit their needs best.

From time to time as they become available, we will print actual test results using different methods and different materials. We welcome reader comment on their experiences with different methods.
